

## THE GENESIS FACTOR

(Watch the [Video](#) – Listen to the [Audio](#))

“The Genesis Factor” is not the title of a book that is on the best seller list, nor is it a new Si-Fi movie, or TV documentary, but it is a hidden force which controls everything in the Cosmos. This message is not more theoretical science pretending to be factual science that dresses up in the costume of “faith, and belief”. This is the same foolish garb in which all man-made religions dress, of which Christianity is the biggest peddler of illogical superstition based upon blind belief. Anything that necessitates faith and belief in some non-provable statement is nothing more than man’s religious mumbo jumbo. The messages “[Bible 101](#)” and “[Christianity’s Achilles’ Heel](#)” delve more deeply into the chicanery of Christianity which will not be explored here. When their perversion of scripture is exposed the Christian propagandists say, “Brother you have to take our word for it. You have to have faith. You have to believe.”

The most insane things are peddled in this way. Without “faith and believe” such absurdities would not, could not, exist in a world built upon fact and proof. A lot of merchandise is sold, and peoples’ livelihood are built around the Santa Claus spoof, which is continually told as truth to little children. The difference between a child and an adult is not in age, but in their thought, in their understanding, and in their reality. This message is not for children busily playing in a sand box. Just try and take them out of it, and they will kick, and scream, and holler, and whine, and cry. No one ever learns anything while having a fit. If you doubt this then expose the absurdity of their Santa Claus isms, which defy all logical thought, and watch what they do. Here is fact. No plant looks like its seed, and no seed its plant. Here is fact. All of nature cycles. Here is fact. There is spring, summer, winter, and fall. Here is fact. Things are born, grow, and die. Here is fact. A cycle is a circle. Here is fact. There is sunrise, sunset, and sunrise. Here is fact. The cosmos cycles. Here is fact. A force controls every cycle in nature, in the cosmos, and that controlling force is the “Genesis Factor”.

This provable life force will burn down the science and religious theorists’ paper mache creation because it is a fact which can be seen throughout the universe, and this has nothing to do with an irrational faith. Ignoring the reality of a thing does not make it go away, and trying to hide a fact does not make it disappear either. Children fixated in an imagined reality are easy prey for the propagandists. “The Genesis Factor” will expose what the spin doctors have worked so hard to conceal. But what is “The Genesis Factor”? It is simple enough, just break it down into its components. The root of the last word “factor” is FACT. In the complete phrase it is not just “some” fact, but is “the” determining fact, the factor which is where the GENESIS part enters. The English word “Genesis” comes from the transliteration of an ancient Greek word. Here is fact. The transliterated word “Genesis” had its origin in the Bible, and is also the name of the first book of the Bible.

Contrary to the popular belief “Genesis” does not mean “first”. While teaching that this first book in the Old Testament was written in Hebrew, it is never mentioned that this book’s title is not Hebrew, but Greek. Here is fact. Every title of every book in the Bible is Greek. Here is fact. The scriptures in Christ’s day were Greek, and not Hebrew. Ever wondered why the New Testament verses which were to be quotes of the Old Testament never match? Here is fact. The Bible’s Old Testament comes from a translation of manuscripts written in a Hebrew language that did not exist for centuries after Christ. This Old Testament is not a translation from the Paleo-Hebrew which was the Hebrew language up until the time of the New Testament, but it is a translation of manuscripts written in modern Hebrew. The scriptures used in Christ’s day were a translation of the Paleo-Hebrew texts into Greek which is called the Septuagint, and was done in Alexandria Egypt around 300 BC. The New Testament quotes match the Septuagint, and it was the Septuagint which gave the Old Testament books their names. Since Christians believe the lie that the Greek word “Genesis” means “first”, they will never have a clue about the theme of “Genesis”.

If “Genesis” does not mean “first”, then what does it mean? It is not complicated when it is seen in English, but you thought you were seeing it in English. Well this is partly true, but the perverters of all truth

have played a mind game with you. Through centuries of brain washing, you see one thing, and think another. Look again at “Genesis” and what English words jump out at you? It may be necessary to remember that many thousands of English words originated in other languages, and Greek was a primary one. What is the root of “Genesis”? Is it not GENE? How about “gene”, “genetics”, or “genome”? During the previous decades great advancements have been made in the scientific study of “genetics”, the investigation of the “genome”, and DNA research. No Christian will rise up and speak the truth that the Bible is a book about GENETICS. This would destroy all of Christianity which blabbers endlessly about all races being equal, the same. Their god would never make races different, since he loves them all the same, and they are all equal to him. Furthermore only bigots are so prejudiced as to ever mention race. The entire message of the Bible is “genetics”, and this is why its very first book is named “GENESIS”. This is also reaffirmed with each of its many detailed **genealogies** contained in it.

The dictionary defines “genealogy” as “records, or accounts of the ancestry and descent of a person, family, race”. Trying to steer away from these genealogies, Christianity will claim that the Bible says “to avoid genealogies, neither heed them”, but the genealogies spoken of in 1 Timothy 1:4 are “endless”, and the ones in the Bible are not “endless”, and the ones in the Bible, they all have a beginning and an ending, and they don’t fit the classification of “foolish” in Titus 3:9. The records of racial ancestry are not only important in the Old Testament, but also in the New Testament. The first book in the New Testament start out by saying that this is “*The book of the **generation** of Jesus Christ*” (Matthew 1:1). Here is Fact. The English word “*generation*” in this verse is translated from the Greek word “genesis”, which is the name of the first book in the Bible. Notice the similarity of Matthew 1:1 with Genesis 5:1. “*This is the book of the **generations** of Adam.*” Here is fact. There is no Jew Darwinism evolution in the scriptures, which never state or imply that Adam was the first human on planet earth, which is addressed in the message “[Adam Was Not The First Human](#)”. According to the ancient texts, there were races and nations of people on earth before Genesis 1:1. There is a message about this in “[Biblical Ancient Aliens](#)”, and “[Battlefield Earth](#)” is about what is really taking place on planet earth.

This message, “The Genesis Factor”, is about the driving force that is propelling the cosmos. Faith and belief have nothing to do with anything that has been, is now, or is coming. This is a journey that is completely controlled by a force set in motion before the cosmos which is addressed in another message “[Before The World Was](#)”. “The Genesis Factor” is clearly taught in the scriptures in spite of the mumbo jumbo coming out of Christianity, theoretical SI-FI science, intellectual idiocy called education, and socio-political correctness. Here is fact. The life force of genetics, DNA, race, is the “Genesis Factor” which pertains to all organisms, to all dynamic things, animate or inanimate. Here is fact. There is an endless cycle of energy, a vibration, a hum, a frequency, throughout the cosmos. The universe is more than a series of freakish accidents, or a carnival side show. “The Genesis Factor” is seen in all things, and is the absolute iron law of order. Nothing can overpower “The Genesis Factor” which is not coming to a theater near you, but is being shown on the panoramic screen of the whole universe. Look around at the marvel of it all, and realize that the best is yet to come, for there is a progression, a growth, a development from seed to maturity that produces more seed. This great ordering of all things is “The Genesis Factor” which is not controlled by anything as whimsical as man’s belief, which changes daily. Here is fact. This message causes a vibration within those who have developed past “childishness”. Its infinite ramifications may not be understood, but deep down is the awareness of being more than the product of a sex act. Change is simply growth and development from the life force of “The Genesis Factor”.
